

**TERRACON GEOTECHNIQUE LTD.**  
**Engineers, Geologists and Technologists**

Terracon Geotechnique is an independent, Canadian consulting firm, wholly owned by its management staff. Established in 1978, the firm primarily serves the mining industry and the Athabasca Oils Sands region from its corporate office in Calgary and office, soils and concrete laboratory in Fort McMurray. We are currently seeking candidates for Civil Technologists, Geological Engineering Technologists and Geotechnical Engineers for our Fort McMurray office and site based locations.

These are challenging and demanding positions in support of expanding and new oil sands mining projects. Reporting to the site Supervisors, the candidates will have field experience in soils engineering, drill monitoring and construction monitoring, QA/QC monitoring techniques, piling inspections, site investigations and general soils and concrete testing.

Candidates will have a Civil Technologist Diploma or a Geological Engineering Technology diploma, along with 0 to 5 years related field experience. They must have strong English communication skills, both verbal and written. Should have experience with Microsoft applications. CCIL certification and experience with 4x4 and all terrain vehicles (ATV) is also an asset.

If you are interested in this opportunity, please submit a cover letter and resume referencing the position title to:

**Email: [careers@terracon.ca](mailto:careers@terracon.ca)**  
**Fax: (780) 743-2420**

Please note that only successfully applicants will be contacted. No telephone calls please.
