

# Mosses of the Manitoba peatlands east of Winnipeg

An online workshop hosted by the Herbarium at Brandon University

Thursday 29 April 2021, from 9:30 a.m. to 4:00 p.m. Central Time

Cost: free

## Workshop details

The aim of the workshop will be to familiarize participants with the mosses to be found in the many peatlands between Winnipeg and Ontario. *Sphagnum* peat mosses will be a major focus, but other mosses will also be covered. A significant amount of time will be spent examining specimens with life-size images and digital microscopy. Formal botanical training is not required. The workshop will use a blend of lectures and interactive online activity.

## Registration

To register, please contact Terence McGonigle using the following e-mail:

[mcgoniglet@brandonu.ca](mailto:mcgoniglet@brandonu.ca)

The number of participants will be limited, so please register early.
