Protecting our community with care and caution

BRANDON UNIVERSITY COVID-19 CAMPUS OPERATIONAL GUIDELINES

Brandon University is focused on providing quality educational experiences in a safe environment. As we navigate the challenges of the ongoing pandemic together, we have outlined three options for greater or looser opening of the campus. These broad phases for safely re-opening campus are an easy-to-understand and flexible framework to guide us as we respond to the ever-changing nature of the pandemic, especially locally.

Within each phase, we have the ability to fine-tune our response to meet specific needs. For example, students may require more on-campus supports during the regular session than during spring and summer, while in the same phase. We will also consider Covid diagnosis rates and trends in our community, public health and provincial guidance, and protective measures in place on campus.

MORE CAUTIOUS ← → MORE OPEN

BU 1: Phase Blue
