

**Department:** Agriculture & Resource Development

**Branch:** Water Science & Watershed Management

**Job Title:** Watershed GIS Assistant

**Proposed Start Date:** Week of September 28<sup>th</sup>, 2020

**Location:** Brandon, Manitoba

**Hourly Rate:** \$14.30

**Work Hours:** Part-time (2 days per week). These hours can be arranged based on student schedule providing they are between the hours of 8 and 5.

Working closely with Watershed Planning and Program staff, the successful candidate will provide GIS support, including but not limited to:

- The development of an infrastructure geodatabase, including compilation and organization of spatial data and associated materials;
- Development of project and map templates related to water resource management programs;
- Assistance with the development of online communication materials to support Integrated Watershed Management Planning;
- Creation of large format maps for clients;
- Organization and creation of spatial data and maps related to watershed planning.

Funding for this position is provided by the STEP program, and the successful applicant must meet the requirements of the program. Please see <https://www.gov.mb.ca/cyo/studentjobs/> for more details.

Please forward resume to Lacy Kontzie, Watershed Planner – lacy.kontzie@gov.mb.ca by September 24<sup>th</sup>, 2020.
