

LEARN ON THE LAND: Oneida Field School with BU

Contact Dr. Jennifer Mateer,
Department of Geography and
Environment at Brandon University
(mateerj@brandonu.ca)
for details!

Spend a week learning on the land with the Oneida Nation of the Thames in this unique field-based learning opportunity. Explore how land use, water, and development shape landscapes and communities while working with community partners to document how land uses interact with nearby waterways.

Join Us
**AUGUST
22-29**

What will you do?

- Document land uses and environmental change
- Learn how geographers monitor land and water systems
- Contribute to a small baseline dataset for community monitoring

What will you learn?

- Field-based research methods
- Community-engaged geography
- Environmental monitoring
- Indigenous approaches to land stewardship

Additional course fees cover camping, meals, field activities, and honoraria for knowledge holders
