

The Northern Miner's Careermine

Web Site Description: "Started in late 1998, Careermine, a division of Glacier Resource Innovation Group, provides the largest dedicated job board to the mining industry worldwide. Careermine provides the ideal platform for job seekers to find their dream job and interact with companies and recruiters who are hiring. Companies in the mining industry can showcase their employment opportunities, company profile and career paths for both graduates and those already working in the industry."
