

LEAD 2015-2016

LEAD provides current and future leaders the opportunity to build their leadership capacity and acquire the knowledge, skills and tools important for cultivating the talent of others in order to achieve their highest potential. The program challenges participants to be innovative in their approach to leadership.

Our Approach

With a focus on Transformational Leadership, LEAD develops participants using a number of methods including the MBTI and MLQ 360 Leadership Assessments for self-reflection and goal setting, modules that include topic specific workshops and activities, and a chosen work project for active learning.

LEAD is for

- developing the capacity of **new and existing leaders**
- developing **high potential employees** for increasing responsibility and leadership (tomorrow's leaders)

Modules & Workshop Scheduling 2015/16

LEAD is set to launch with a retreat on **August 26 and 27, 2015**.

The program consists of six modules, each consisting of a one day workshop with related pre-work or activity. One workshop will be held per month from September to March of the academic year, followed by the larger program project presentations* and wrap-up celebration in May.

The **2015-2016 workshop schedule** is as follows:

- Transformational Leadership - Wednesday, September 30
- A Manager's Toolkit (ACC & BU Specific) - October & November Dates to be announced
- Motivating & Inspiring Teams - Thursday, December 10
- Decision Making & Creative Problem Solving - Thursday, January 7
- Difficult Conversations - Thursday, February 11
- Dealing with Conflict - Wednesday, March 9

**program projects will be discussed at the retreat*

Participant Nomination

Participants are selected through a nomination process, with up to eight individuals being selected from both BU and ACC, for a maximum of sixteen participants. Sponsors are required to complete the *LEAD Participant Nomination Form* and provide a written *Letter of Support*.

Participants are required to participate in and complete all components of the program for successful completion. These include completion of assessments, retreat and workshop attendance and participation, as well as completion of workshop pre-work and the program project.
