

Memorandum of Agreement
Between Brandon University and the Brandon University Faculty Association
Re: Supervision of Field Experience in the Faculties of Music and Education

Whereas the second paragraph of Article 9.5.a.iii of the Collective Agreement describes the workload allocated for the supervision of field experience courses in the Faculties of Music and Education, and whereas discrepancies have arisen due to the differential application of this language between these Faculties due in part to a policy change in the Faculty of Education, the Parties agree to amend the language as follows:

In Education and Music, the supervision of the field experience of one (1) student, for each week of that student's placement, equals 0.08 of one (1) credit hour per week if the supervision is conducted by Brandon-based members and requires traveling beyond 100 kms from Brandon to observe students in the field, and 0.04 of one (1) credit hour for all other instances if the supervision is assigned by the Office of Field Experience to which the member is responsible.

All existing contracts for the supervision of field experience in the Faculties of Music and Education issued, or to be issued, for the 2015-16 academic year will be amended to ensure that they are in compliance with this language.
