

International Students' Collective of BU

ISC BU

Members from more than 15 countries
Since 2012

WHAT is ISC BU ?

The International Students' Collective of BU (ISC BU) was established to provide a positive and inclusive campus atmosphere for students of all ethnic identities, cultural backgrounds, and religious beliefs. We are dedicated to assist BU international students navigate their ways through their struggles (e.g. homesick, cultural shock, language barrier, etc.) and cope with the new environment (new communal traditions, new academic standards, new societal expectations, etc.).

WHAT does ISC BU do ?

By organizing various types of fun and safe events, activities, workshops, and sharing circles, ISC makes your university life filled with joyful moments. By offering forums for its members to voice their concerns, ISC ensures that BU international students' rights are protected by not only themselves but also the whole international community.

WHO manages ISC BU ?

The ISC Executive Council is responsible for the growth of the collective by recruiting new members, organizing all the events and activities, and ensuring that international students' voices are heard by the university structure and BU Student Union. The council consists of 6 passionate and competent executives, including the President, the Vice-President, the Treasurer, the Secretary, the Public Relations, and the Social Coordinator. All executives are elected by the majority votes during Annual ISC Executive Elections in every April.
