

Instructions

Room 2-02

Use Audio on PC: In the cabinet, turn on the Sony Stereo and press Video 2 button.

Use Audio on laptop: Connect the Audio cable to the laptop and turn on the Sony Stereo, and press Video 2 button. The Audio cable, marked with a **Red** tape, is attached with the VGA cable and can be found by the connection port box on the right side of the monitor.

Use Projector on laptop: Connect the VGA cable to the laptop. The cable, marked with a **Red** tape, can be found by the connection port box on the right side of the monitor. If laptop does not have a VGA port, connect the VGA cable via HDMI adapter (if available) or via USB-C port (marked with a **Yellow** tape).

Please note: If you are having trouble connecting to the computer or other equipment, please contact the Help Desk at (204) 571-8500 or helpdesk@brandonu.ca. Mac users may need to ensure that specific device drivers are up-to-date.
