PROJECT OVERVIEW

The CED Pathfinder for Communities Project is an applied research project running from **Oct. 2010 to Jun. 2012**. The Rural and Co-operatives Secretariat Community Development Program is funding the project while the Rural Development Institute is the principal organization.

PURPOSE FOR PROJECT

- Help communities make better decisions in choosing CED Tools and improve the effectiveness of development efforts.

PURPOSE FOR CHOICE MATRIX

- Develop a decision-making framework, the Choice Matrix, which communities can use to identify which tools are right for their specific situation or project.

PROJECT OVERVIEW

METHOD

- The RDI employed design thinking methodology to create a research prototype and test the CED Choice Matrix

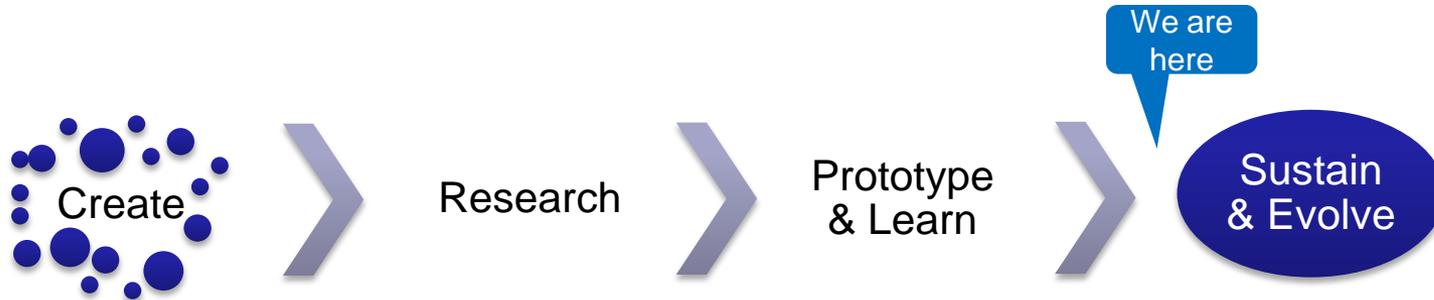

INNOVATION

- Project team had to solve how to effectively organize CED tools and to ensure effective access to those tools.

DESIGN

- Research team had to design a system that built tool credibility through practitioner review.

PROJECT OVERVIEW

The research team defined a CED Tool as:

Any guide, worksheet, checklist, manual, “how-to” or process in text, audio or video formats that is focused on guiding the user through a CED activity
