- What's a "Tool" and what's not:
  - CED Tool is: Any guide, worksheet, checklist, manual, "how-to" or process in text, audio or video formats that is focused on guiding the user through a CED activity
  - a CED Resource is: Any set "facts", data, information, knowledge, experience, that can be transformed or put to use by tools.

## No perfect way for organizing tools:

- Expert centred (perfection, power)
- User informed (Microsoft office drop down menus)
- Friendly disorder, mashing (Amazon)
- **New digital disorder** (D. Weinberger, 2007)
  - Flickr 400M photo, 1M/day, no professional catalogers, users make-up labels
  - US library of Congress 8000 new categories/yr, 7000 books/day
