Westman Opportunities Leadership Group

Dear Sir,

The R.M. of Yellowhead Council is pleased to support the Westman Opportunities Leadership Group in their efforts to provide an opportunity for a world class soybean processing facility in the westman area. Not only is westman most suitable for this type of facility, it would provide a huge economic benefit to this area. Council feels that we have a strong leadership group who together bring a wealth of knowledge and skill. With their dedication, we are confident they will successfully bring this opportunity to our area. We thank the group for their efforts to date and strongly encourage them to continue.

Sincerely,

Nadine Gapka, CMMA  
Chief Administrative Officer  
R.M. of Yellowhead
