

Mapping historic sites in rural Manitoba: development, themes, and applications

Gordon Goldsborough
Manitoba Historical Society

ABANDONED MANITOBA

From Residential Schools to Bank Vaults to Grain Elevators
by GORDON GOLDSBOROUGH

2016

Presentation outline

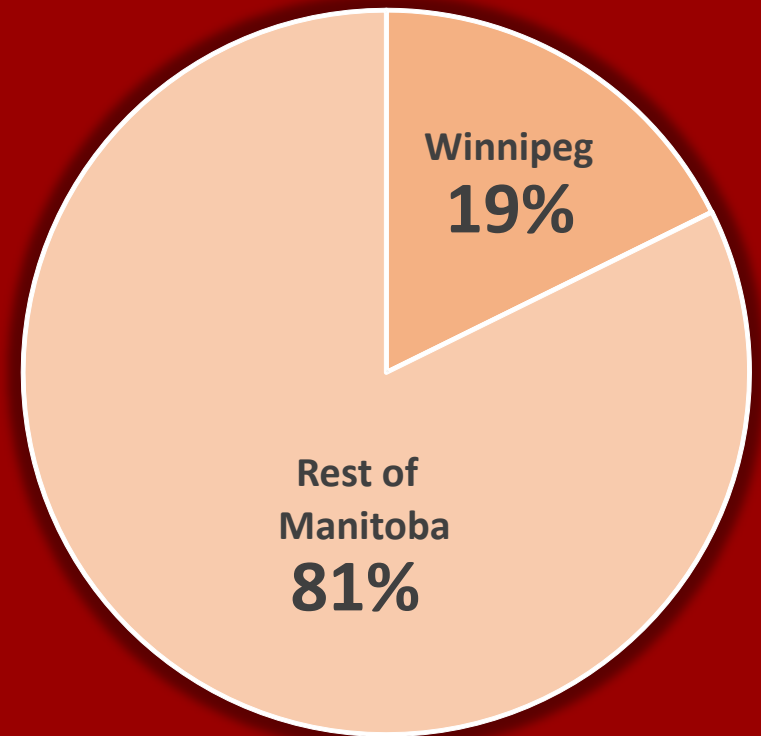

- What is the MHS Historic Sites of Manitoba project?
 - How it started, how it was built, present status
- Project applications, especially pertaining to rural planning and development
- Future plans

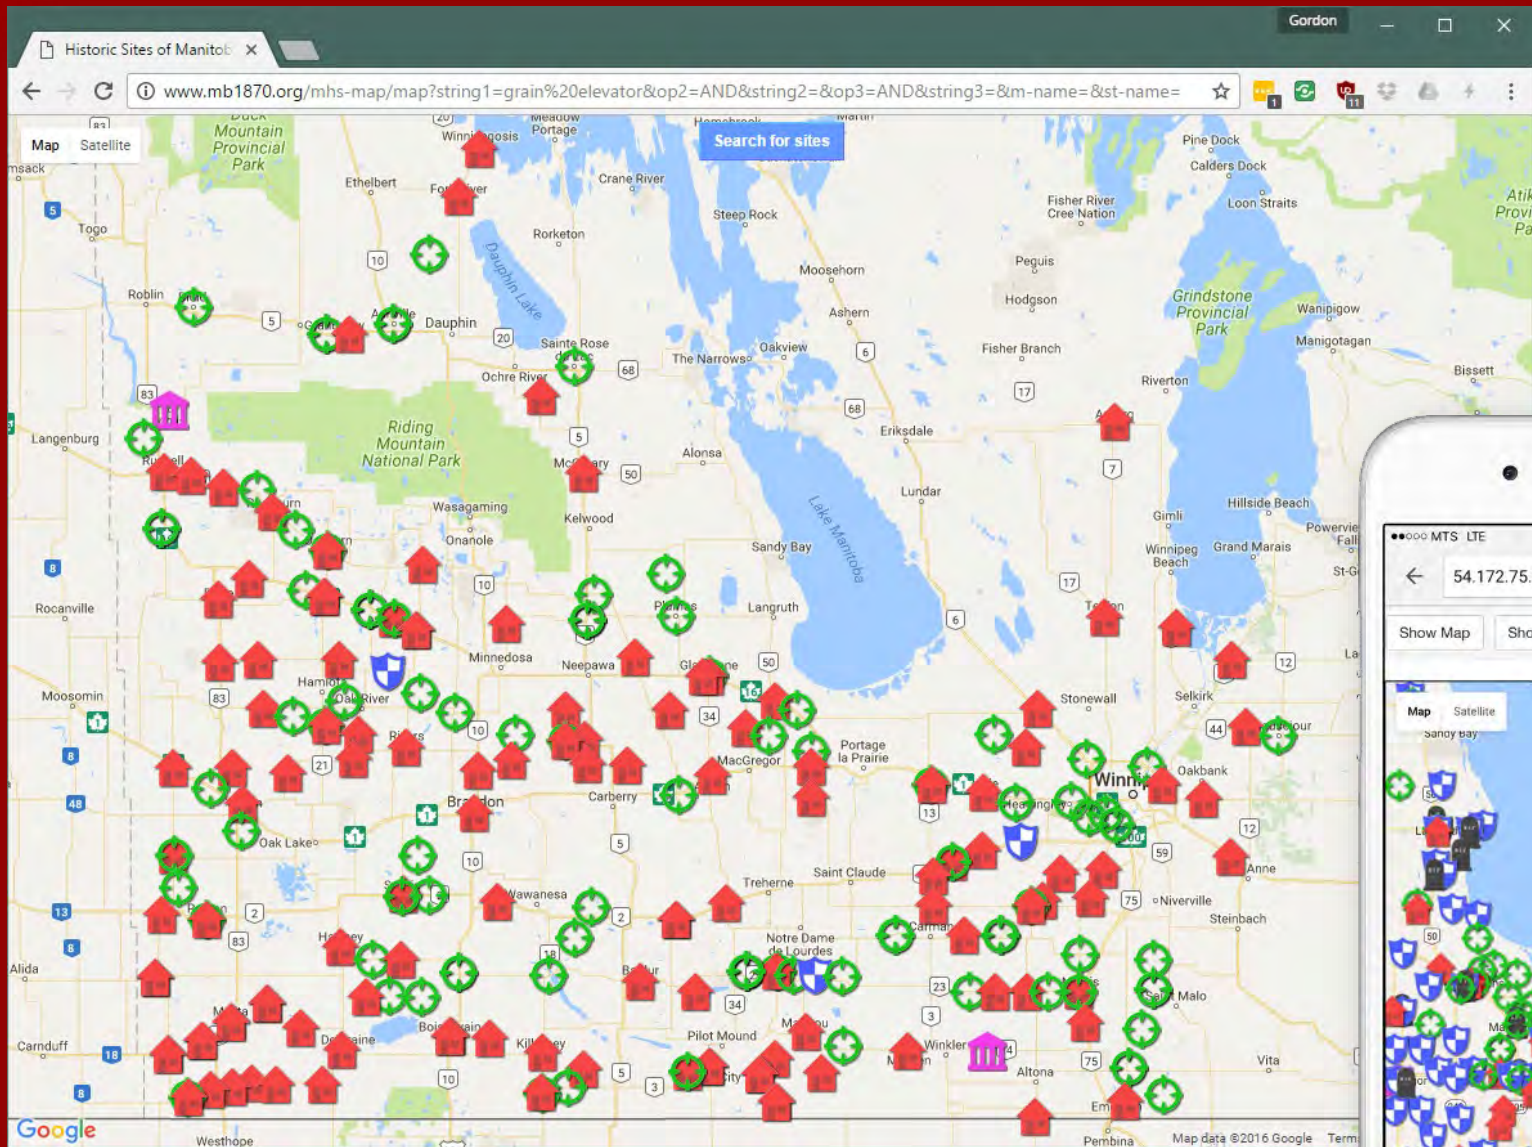

Historic site stats *

7,027 sites:

- 🏠 2,382 Buildings
- ⚰️ 1,036 Cemeteries
- 📍 1,581 Locations
- 🛡️ 2,184 Monuments
- 🏛️ 200 Museums/Archives
- 🚩 197 Other

*** 14 November 2018**

What makes a site historic ?

- Noteworthy object, built or natural, at site
 - Material, constructor, style
 - Level of structural integrity
 - Public or private role / function
- Noteworthy event at site
- Noteworthy person with connection to site
- Who decides what is noteworthy?

Finding the unknown

- Local history books
- Local knowledge, including social media
- Random driving and serendipity
- Google Earth
 - Look for signs of human hands at work (e.g., shelterbelts, foundations, roads, rights of way, and other straight or curved lines; land disturbance)

Riverdale

Little Saskatchewan River

800 m

Built 1918

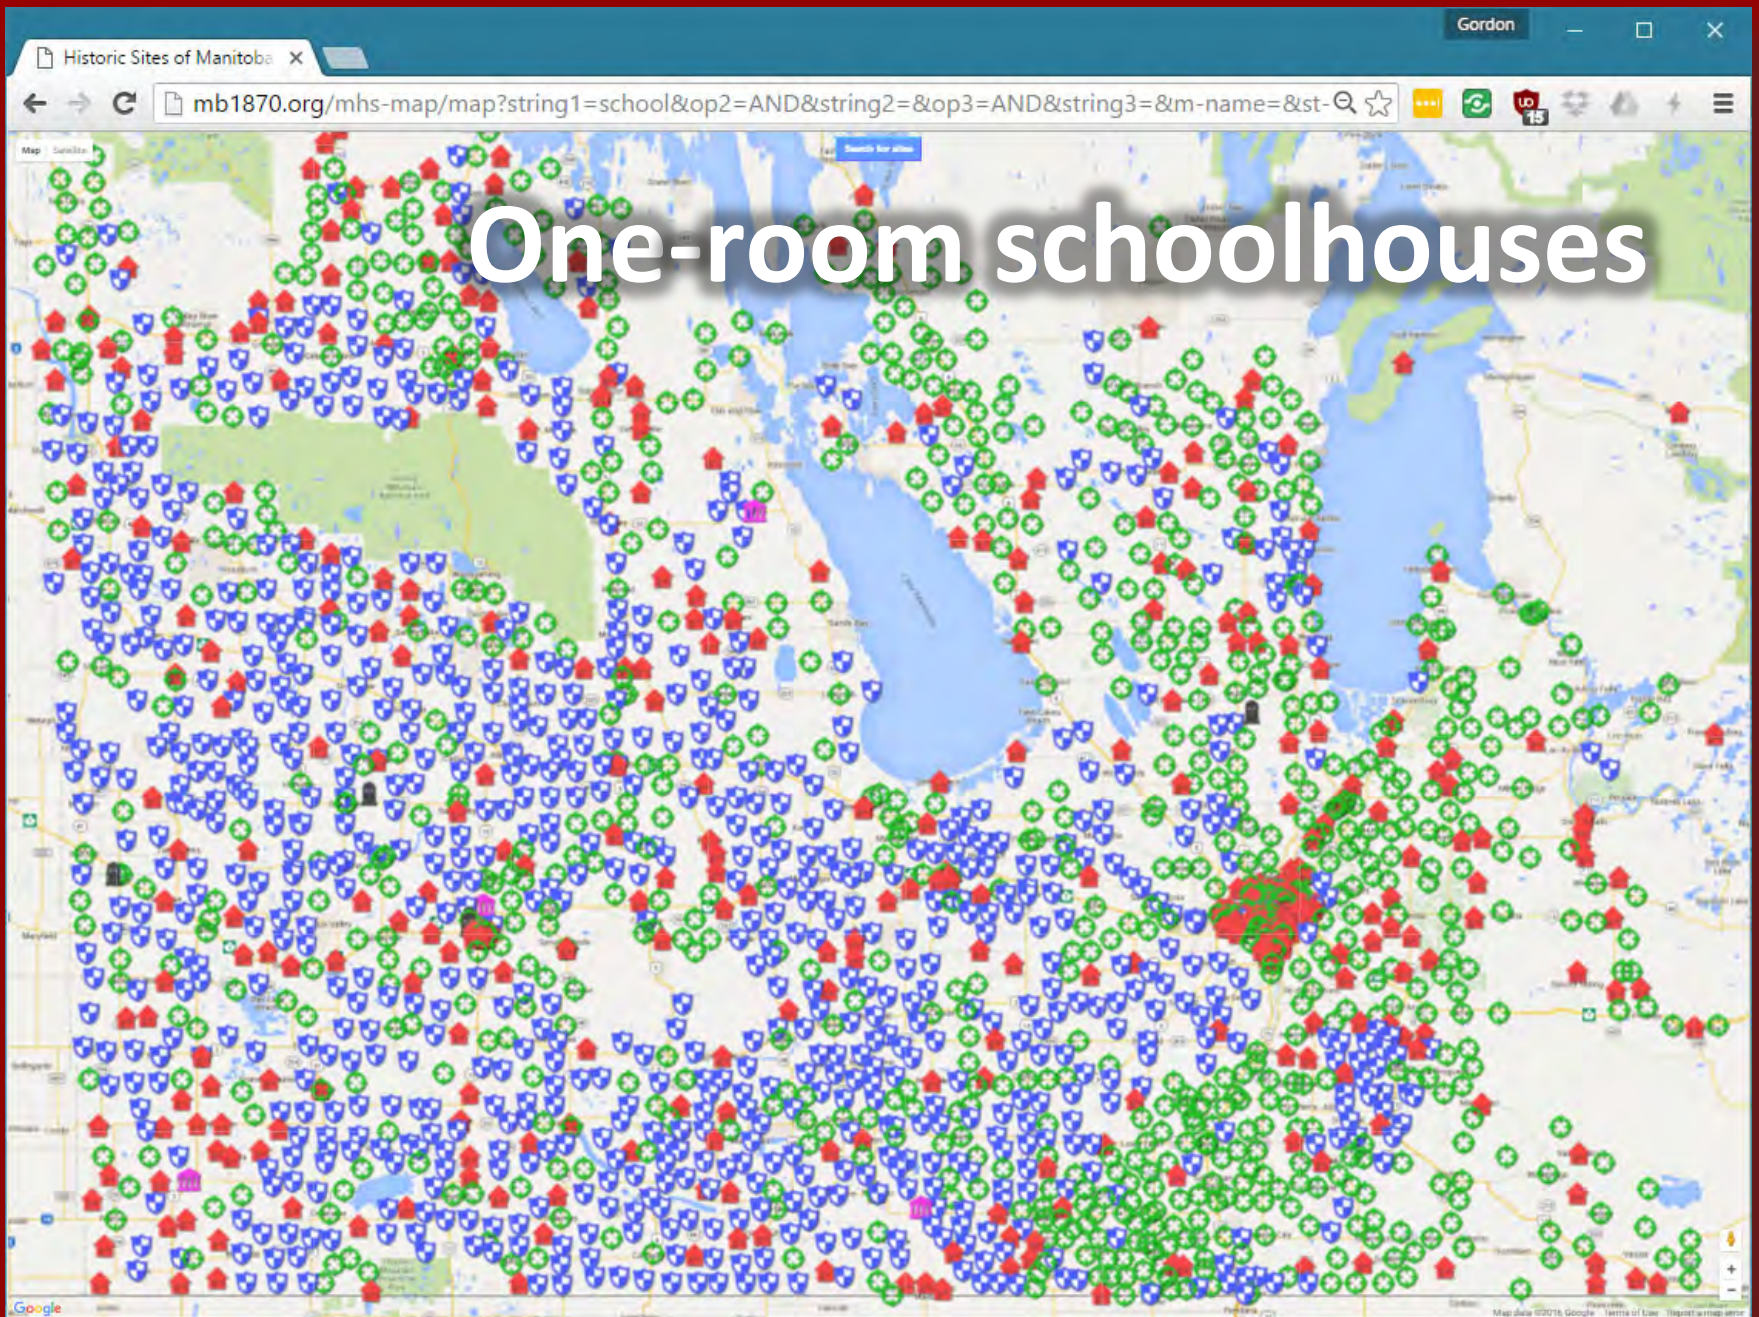

Main road between Minnedosa and Rapid City

RM of Macdonald school mapping project

Explorer's toolkit

ESSENTIALS

- Municipal maps
- Back road atlas
- GPS receiver
- Cameras
- Spare batteries / charger
- Notebook
- Mobile phone
- Business cards

OPTIONAL

- Emergency contact
- Drinking water / snacks
- Sun / insect protection
- Rubber boots
- Change of clothes
- Camping gear
- Extra vehicle fuel
- Talking books

Going inside ?

- Structural integrity
 - Look for signs:
 - Start in the basement
 - Water stains and holes
 - Stay close to walls or sides of stair treads
 - Step gingerly
 - “If in doubt, stay out”

Aerial views

No. 7 Bombing & Gunnery School, CATP

Mapping challenges

- Field work
 - Angry birds ... and bugs, dogs, cattle, people
 - Barb wire, electric fences, dense and thorny foliage, mud
- Permission and privacy
- Sensitive sites

Permission and privacy

- In this “Secrecy Age,” finding contact information can be extremely difficult
- Online routes for contact:
 - www.canada411.ca (including reverse lookup)
 - Social media
- “Old school” detective methods:
 - Municipal office
 - Ask the neighbours

Permission & privacy

- “No phone call, no email, no letter.”
- Typically, it is easier to ask for forgiveness than permission.

A two-story stone building with a gambrel roof and dormer windows, situated in a field under a blue sky with clouds. The building is constructed from rough-hewn stones and has several windows that appear to be boarded up or missing. The roof is made of wooden shingles and shows signs of wear. The building is surrounded by dry grass and a few small trees in the background.

“It has come to my attention that you have posted a piece of my private property on your website and also on social media. Not sure what you were told about this, but I in no way gave permission for it to be posted online, especially with a map and gps coordinates to the location. I am requesting that the link be removed immediately.”

www.mhs.mb.ca/docs/sites/woodbayeelevator.shtml

Site Location (lat/long): N49.24928, W98.81752
denoted by symbol on the map above

Some map themes

- Rural depopulation
- Agricultural mechanization
- Development of telecommunication and electrical infrastructure
- Changes in construction methods
- Evolution of educational system
- Changing attitudes to organized religion and institutions
- Home-front involvement in wartime

Map uses

EDUCATION

- Historical and genealogical research
 - “Scouting” for potential movie locations
 - Finding cemeteries where loved ones are buried
- Teachers can lead their students on tours of faraway communities
- Students can identify new sites and do research on them (e.g., cenotaphs)

Map uses

HERITAGE TOURISM

- Sites get more exposure than by accidental discovery
- Visitors can plan trips in advance
- Helps visitors to find obscure sites
- Provides expanded / updated information beyond what is provided at site
- GPS-enabled (& driverless) vehicles give historical information along travel route

Map uses

ADVOCACY AND PUBLIC DESIGNATION

- Many sites warrant official designation, repair and protection
- Inclusion on the map may provide local leverage in the face of raised public awareness

Democratization of site designation

- Everyone helps to develop comprehensive inventory of historic sites for benefit of all
- Everything is made publicly, freely available
- Everyone is acknowledged
- Mistakes are corrected as found and new information is added as it becomes available
- Standard protocol ensures consistency and accuracy

Grain elevator countdown

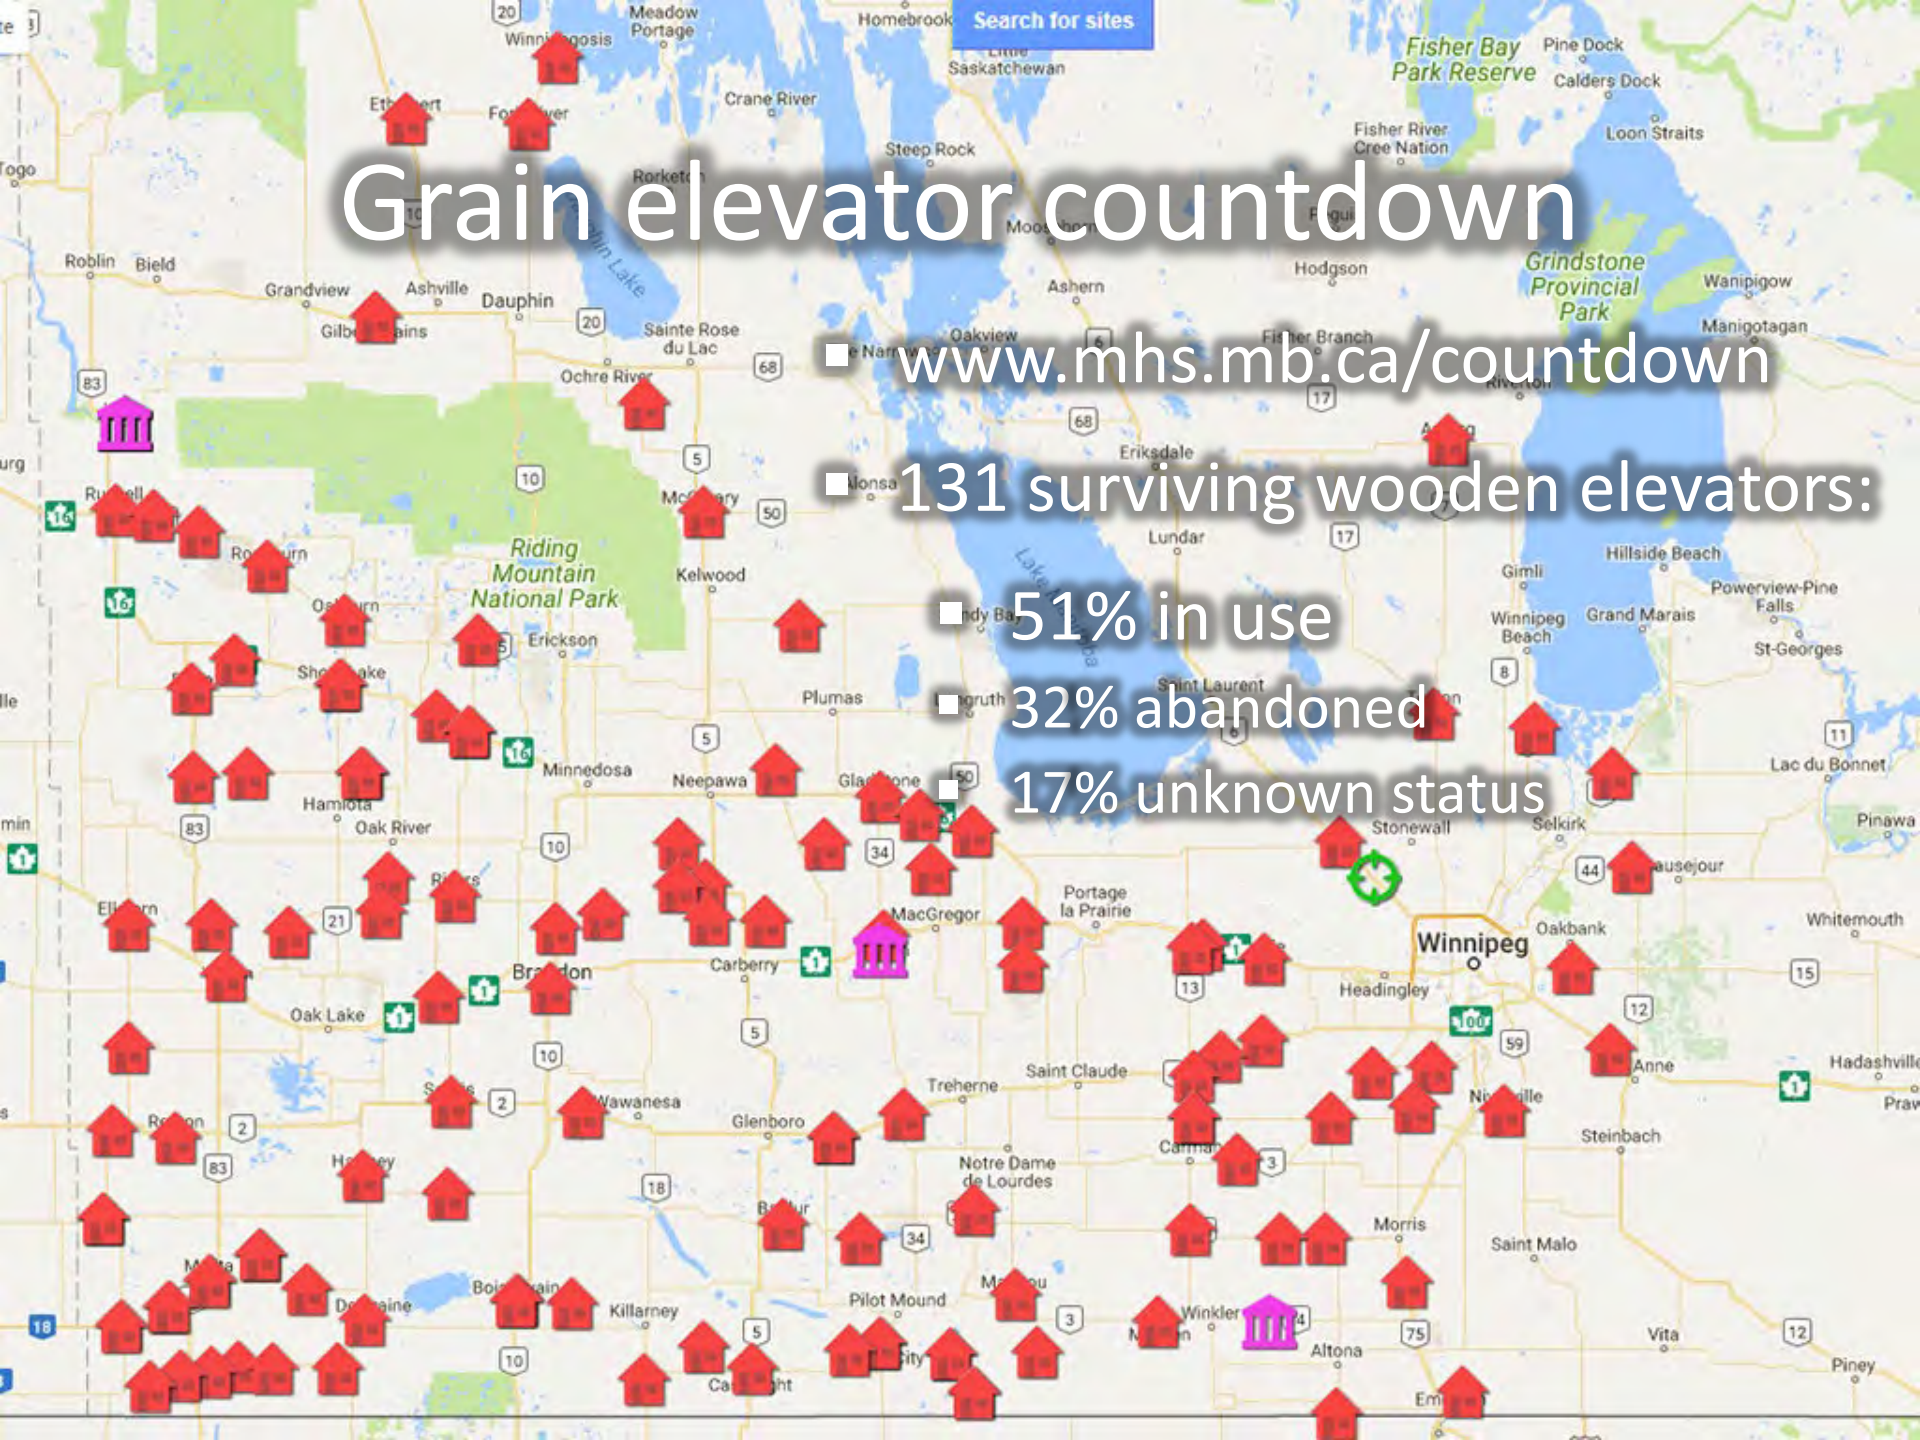

■ www.mhs.mb.ca/countdown

■ 131 surviving wooden elevators:

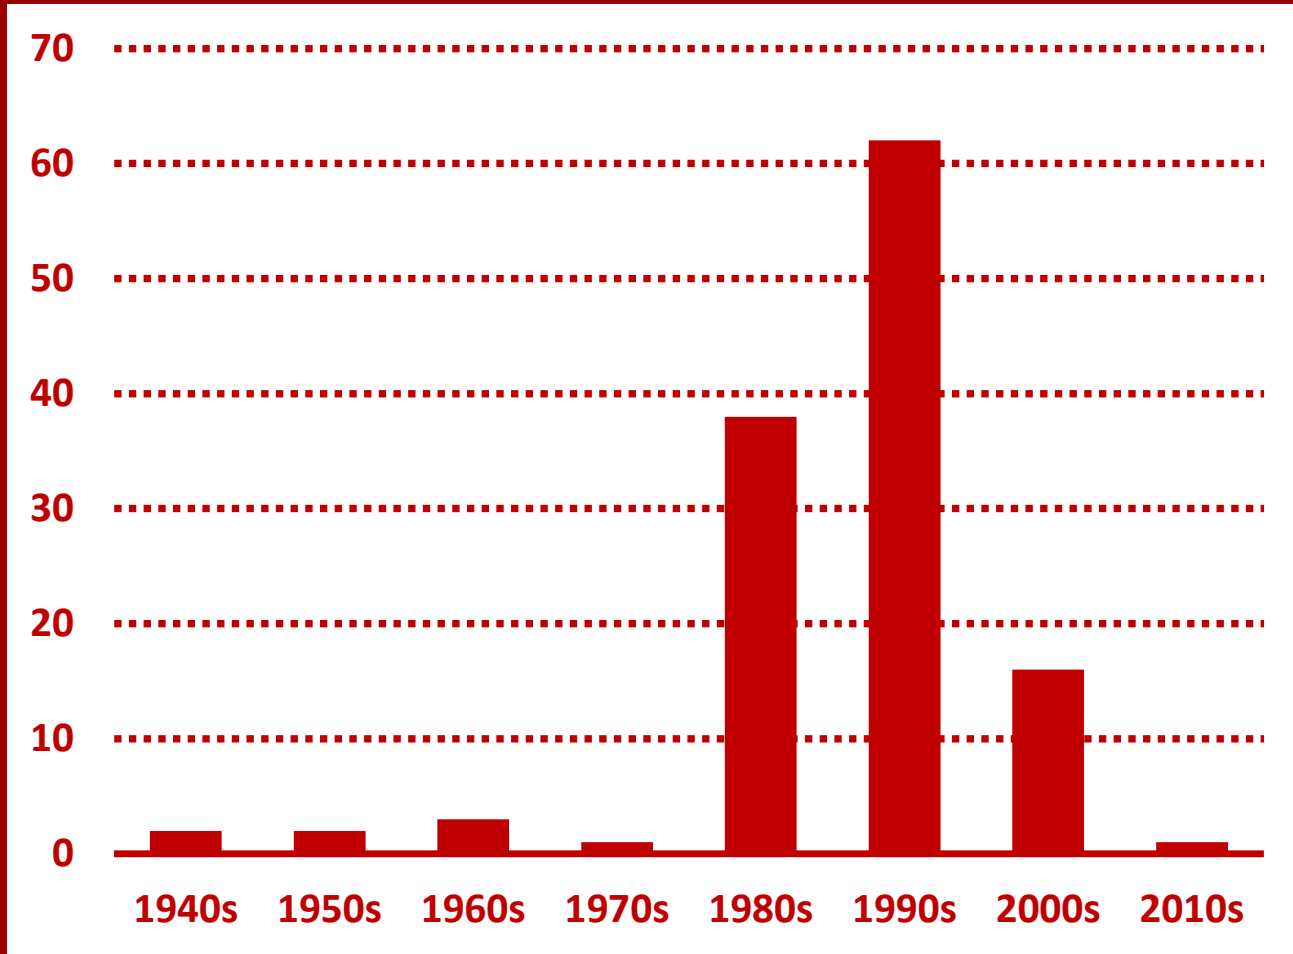

■ 51% in use

■ 32% abandoned

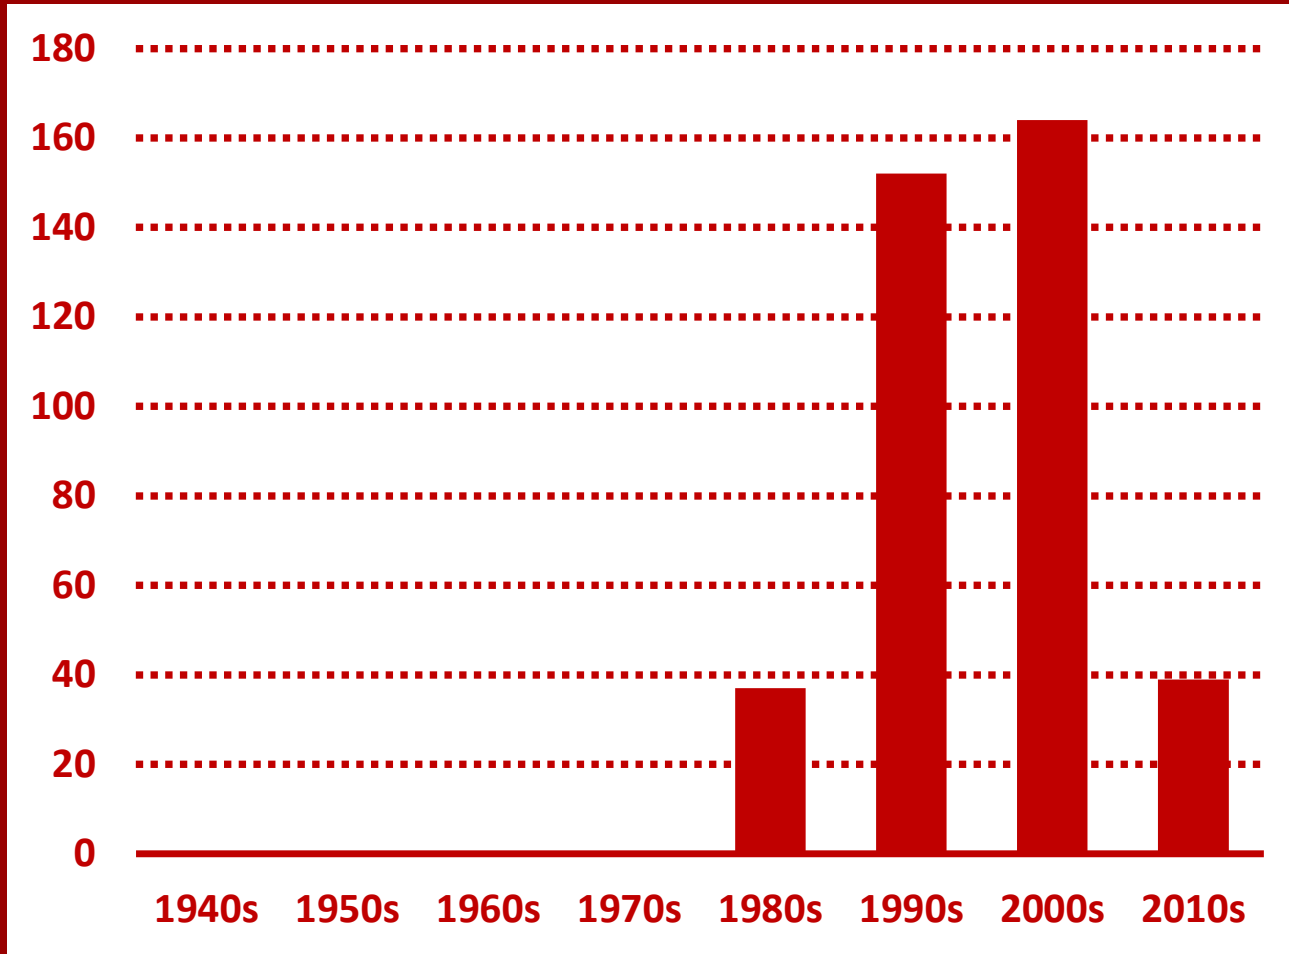

■ 17% unknown status

Provincially designated sites

Rural municipally designated sites

Map uses

RURAL HERITAGE PLANNING

- Inventory
 - You cannot count it, manage it, or promote it unless you know about it
 - Achieve critical mass by crowdsourcing
 - The back story: who, what, when, where, why

Map uses

RURAL HERITAGE PLANNING

- Management / Preservation
 - Worldwide talent pool
 - Acquiring statistics
 - Monitoring site status and effect of policies (“many eyes make light work”)
 - Identifying problems or opportunities for maintenance, adaptive reuse, etc.
 - Gauging community priorities (abandonment is a public statement)

Map uses

RURAL HERITAGE PLANNING

- Promotion
 - Online inventory provides deeper experience, via links to online information (e.g., QR)
 - Reach new audiences
 - Engage public dialogue on heritage priorities

Our future plans

- Continue mapping of “new” sites
- Maintain and update existing site information as possible (importance of ongoing public dialogue)
- Improved (and mobile) map interface
- Expand metadata to improve searchability of site inventory
